

# Adobe® Output Pak for Oracle E-Business Suite

## Extend and accelerate document output from Oracle E-Business Suite

### At A Glance

---

Adobe Output Pak for Oracle E-Business Suite enables organizations to transform report information from Oracle E-Business Suite into professionally formatted, dynamic business documents.

Adobe Output Pak for Oracle E-Business Suite works with Adobe Output Designer, a graphical template design and development tool. Using Output Designer, organizations can easily create complex electronic documents that exactly replicate existing paper documents. This easy-to-use tool can eliminate the need for custom programming and the cost of maintaining inventories of preprinted forms.

### Effective, Customer-Facing Documents from Oracle E-Business Suite

In many cases, documents such as invoices, purchase orders, and contracts are an organization's only touchpoint with customers and partners. Adobe Output Pak for Oracle E-Business Suite allows organizations to improve service and increase customer retention by providing easy-to-understand professional documents in the recipient's preferred format.

**Dynamic documents**—With Adobe Output Pak for Oracle E-Business Suite, the application data controls the document's appearance. Documents grow or shrink to accommodate the number of line items the application data generates and can include calculations such as subtotals or currency conversions. Using stored customer information, Output Pak for Oracle E-Business Suite can include personalized messages in documents, promoting successful upselling and cross-selling.

**Powerful, flexible output**—By merging application data with electronic document templates, Adobe Output Pak for Oracle E-Business Suite can generate multiple documents from a single data stream. Customers can receive personalized documents in the format they prefer—Adobe Portable Document Format (PDF), print, fax, e-mail, or Web.

### Enhanced Corporate Image

Adobe Output Pak for Oracle E-Business Suite gives organizations increased control over their documents and helps ensure consistent communications with customers and partners.

**Professional-quality documents**—Using Adobe Output Pak for Oracle E-Business Suite, organizations can create effective, well-formatted documents that strengthen customer and partner relationships.

**Extensive document options**—Adobe Output Pak for Oracle E-Business Suite supports numerous document options including graphics, boxes, logos, watermarks, flexible field placement, font control, bar codes, rotated text, and calculated fields.

## Lower Costs

Using Adobe Output Pak for Oracle E-Business Suite, organizations can reduce staffing and inventory costs and reuse the same information for a variety of purposes.

**Reduced programming**—Use the graphical, intuitive Adobe Output Designer to design and maintain multipage or multipart documents. Customize documents with company logos, complex graphics, and bar codes, without programming skills. Make document changes in minutes—not hours or days—which can save time and money.

**Decreased inventory**—Help to eliminate the printing, storage, obsolescence, and administrative costs associated with maintaining inventories of preprinted forms. Adobe Output Pak for Oracle E-Business Suite generates up-to-date documents on an as-needed basis.

**Out-of-the-box document templates**—Use the Adobe Output Pak for Oracle E-Business Suite tools to easily create documents from any Oracle report. The Output Pak includes a comprehensive set of prebuilt, customizable document templates to get organizations up and running quickly. Templates include:

- Accounts Payable Check
- Bill of Lading
- Commercial Invoice
- Credit Memo
- Dunning Letter
- Invoice
- Invoice-Debit Memo
- Purchase Order
- Request for Quotation
- Sales Order Acknowledgement

## Support for Global Business Requirements

**Worldwide document delivery**—Adobe Output Pak for Oracle E-Business Suite can generate documents in English, French, German, Swedish, Spanish, Italian, Finnish, Norwegian, Danish, Portuguese, Czech, Polish, Hungarian, Russian, Simplified Chinese, Traditional Chinese, Korean, and Japanese. By supporting multiple currencies, Output Pak for Oracle E-Business Suite enables organizations to generate dual-currency documents without changing line-of-business applications.

## Efficient Document Output and Archiving

**Optimal printing efficiency**—Adobe Output Pak for Oracle E-Business Suite and Adobe Output Management System work together to manage the document-generation and printing process, and can save organizations time and money. Adobe Output Management System allows organizations to maximize their use of printing resources. It guarantees that documents are printed and provides tools to address print errors through job management and reprint capabilities.

**Easy archiving and management of documents**—EASY Archive, available from Adobe, enables organizations to archive documents in Adobe PDF, and can save a significant amount of space, time, and money. Documents are archived automatically and can be retrieved from the Internet or intranet using full-text search.

## Reliable, Proven Integration

**Integrate tightly with Oracle E-Business Suite 11i**—Adobe Output Pak for Oracle E-Business Suite 11i has been tested and approved for integration within Oracle E-Business 11i.
